

Outdoor Musical Instruments For Visitor
and Family Attractions

PercussionPlay
Outdoor Musical Instruments

Music Made for the Great Outdoors

Percussion Play is the world's leading manufacturer of outdoor musical instruments. Designed with durability in mind, we are committed to making musical expression accessible to everyone, everywhere.

Musical Activities for All the Family

Over the years our outdoor musical instruments have found themselves in many varied locations made for family fun, including amusement parks, theme parks, zoos, museums, farm parks, roadside attractions, shopping malls, sightseeing spots, as well as cultural and historical attractions.

From screaming thrill rides to wonderful animal exhibits, the top priority for each of these attractions is to present unique playful experiences that are interesting for all age groups, help create special memories and provide an awesome day out for the entire family.

Making music together is a fun activity that the whole family can get involved in - regardless of fitness level, age, gender or ability. Plus the cognitive, physical, and emotional benefits that music brings to children, parents and, elders means installing outdoor musical instruments is a heartwarming win-win for everyone.

In places where togetherness is the order of the day, our instruments let your guests discover their inner music-maker while playing with the people they love the most.

*"Everyone is impressed with the instruments,
their build quality and sound"*

Conner Prairie Interactive History Park
Indiana

Sensory and Inclusive Play

The very best visitor attractions offer inclusive experiences for a range of ages and abilities and excel in offering their guests easy access to their exhibits. Additionally, their focus on different physical and sensory needs for people living with autism, learning disabilities and sensory impairments, as well as those with varying mobility requirements, makes them stand out in terms of inclusivity.

Outdoor musical instruments are a great way for guests to take some time out from the main attractions to learn a new skill and experience something completely new together – they also have the added benefit of being both accessible and inclusive.

As stand-alone features, installed in calm, sensory-friendly areas away from the lively park, they offer a tranquil opportunity for parents, grandparents or guardians to interact with their children while providing a creative way for attractions to appeal to a wider range of guests with differing abilities and sensory needs

Creating Your Own Music Park

Our instruments are easy to play and are either pentatonically tuned (for easy improvisation with no clashing notes), or diatonically tuned (allowing the user to play favourite tunes as well as improvising or composing their own).

Constructed of durable, easily cared-for materials, the instruments are low maintenance and require no safer surfacing.

We assemble each instrument as far as possible before shipping and send clear, easy to follow installation instructions for each instrument.

Successful attractions with an outdoor element, should always have a wet weather plan! Our 'outdoor' musical instruments have been successfully installed indoors in many different locations, including specially created music barns or sensory rooms.

The majority of our instruments can be ground or surface fixed and we also have a range of space-saving wall-mounted instruments.

From drums to xylophones, chimes, marimbas and even floor pianos our impressive catalogue of instruments knows no limits and there is something for everyone.

Unplugged Music Champions

If you are interested in bringing the power of inclusive musical play to your family or visitor attraction, then get in touch today.

You'll be joining an impressive list of organisations who have already discovered that when friends and families make music together in the great outdoors something magical happens.

Here is a small selection of attractions we have worked with to date:
